PROFILE

A Web Developer who will lead your company to success with creative solutions and aesthetic applications. Former Civil Engineer at some of California's largest infrastructure facilities.

EMPLOYMENT HISTORY

Project Engineer, Monterey Mechanical Co.   Oakland, CA
Feb 2018 — Feb 2020

- **Edward Hyatt and Thermalito Hydroelectric Plant -** Provided Project Engineer assistance in scheduling, ordering materials, submittals, RFIs, and billing for Monterey's role as the general contractor of this project. Located in Oroville, CA. Change orders were estimated to be at over 200% of the original contract value.
- **California Academy of Science Fractionator Replacement -** Managed as a subcontractor. Supplier created over $45,000 in fabrication errors, which my team successfully repaired in an emergency response.
- **Thermalito Afterbay Stop Log Fabrication & Testing -** Provided oversight for a project which included fabrication of (4) 9' x 18' Steel stop logs complete with valves and actuation. Planned and coordinated in-situ testing. The project led to claim issues which I wrote letters and negotiated with the California Department of Water.

EDUCATION

Software Engineering Immersive, General Assembly   San Francisco, CA
Jun 2020 — Sep 2020

480+ Hours of professional instruction on Full Stack Web Development

B.S. Civil & Environmental Engineering, San Jose State University   San Jose, CA
